

Sagar Balu Jaid

Resume

CAREER OBJECTIVE

I have 7+ years of experience in full-stack web development (mainly front-end). with a key interest in React, MERN Stack, SaaS, product design and UI/ UX

I'm an optimistic critical thinker, I believe in the first principle of thinking. Understanding different elements of business is my passion.

I'm looking for challenging opportunities in React JS and Software Development.

My long-term goal is to build or be part of a Product-based company that can impact millions of lives.

CAREER HIGHLIGHTS

- ☐ Enrolled in 20+ web and mobile app development projects.
- ☐ Successfully developed 10+ websites and web Apps.
- ☐ Key interest in software-based products (SaaS).
- ☐ Eye for modern UI/ UX.
- ☐ Wide range of professional experience in different industries.
- ☐ Trained 10+ students in WordPress development and digital marketing.
- ☐ 2 million + Blog Post Views to all blogs.
- ☐ Always learning new technologies, digital and product trends.
- ☐ First principle thinking is the biggest lesson I have learned.
- ☐ A data-driven approach to decision-making.

HOBBIES & INTERESTS

I am a highly driven individual who likes to learn and explore new experiences from nature and the people around me.

I Love Technology, SAAS, Coding, Painting and cooking sometimes.

SIDE HUSTLES

www.scripai.com

I started scripai.com as a fun project to learn NextJs and a few modern technologies. After a launch it went viral in a week and approximately 30,000+ users are using the app every month.

www.careerdekho.ai

I built this tool to help students find the right career fit. It's an AI career suggestion engine and detailed career pathfinder. Currently, 30,000+ students are using this tool from all over the world.
